

Sanjo Maru

Web Developer | WordPress and Full-Stack Development

sanjomaru13@gmail.com | +63 922 778 0275

Portfolio: <https://sanjodev.netlify.app/> | Philippines (Available for remote work)

PROFESSIONAL SUMMARY

Web developer with 10 years of experience building, customizing, and maintaining WordPress and PHP-based websites for clients in the US, Europe, and Australia. Builds custom themes and plugins from scratch, converts Figma, XD, and PSD designs into responsive sites, and works across every major page builder. Handles the full project lifecycle: design handoff, development, debugging, DNS and hosting setup, performance, and on-page SEO.

CORE SKILLS

Languages and Markup: HTML5, CSS3, JavaScript, jQuery, PHP, MySQL, SQL, Sass (SCSS)

WordPress: Custom theme development from scratch, child themes, plugin development and modification, Advanced Custom Fields (ACF), WooCommerce development and custom integrations, theme and plugin debugging, site migration, security and maintenance

Page Builders and Themes: Elementor, Elementor Pro, WPBakery, Beaver Builder, Divi, Avada, Fusion Builder, Thrive Theme Builder, Visual Composer, Genesis Theme, custom and no-builder themes

Platforms and Tools: WordPress, Webflow, Unbounce, ClickFunnels, GoHighLevel, Git, AI-assisted development and debugging tools

Web Fundamentals: Responsive web design, cross-browser compatibility, performance optimization, PSD/XD/Figma to WordPress conversion, on-page SEO, landing pages and funnels

Infrastructure and Support: DNS configuration, domain and hosting setup, business email setup and troubleshooting, SSL, website troubleshooting, client technical support

PROFESSIONAL EXPERIENCE

Freelance Web Developer

Self-employed | 2024 to Present | Remote

- Build and maintain WordPress websites end to end for US, European, and Australian clients
- Develop custom themes, child themes, and plugins, and extend WooCommerce with custom functionality
- Convert Figma, XD, and PSD designs into responsive, cross-browser compatible websites
- Debug theme, plugin, and builder conflicts, including PHP errors and performance issues
- Configure DNS, hosting, domains, and business email, and resolve email delivery issues
- Apply on-page SEO fundamentals: metadata, heading structure, page speed, content structure
- Use AI tools to speed up development, code review, and troubleshooting
- Stack: HTML, CSS, JavaScript, jQuery, PHP, SQL, WordPress

Web Developer

Impressence Web Studios | 2020 to 2024

- Developed and maintained WordPress sites in Elementor, WPBakery, Divi, Beaver Builder, and Avada
- Diagnosed and resolved builder, theme, and plugin conflicts on live client sites
- Built and customized themes and plugins, and implemented responsive, cross-browser layouts from supplied designs

Web Developer

Useradd Today | 2018 to 2024

- Built and maintained PHP and WordPress websites for a varied client base
- Customized themes and plugins, implemented client-requested features, and delivered ongoing updates and fixes

Web Developer

Pix and Codes | 2016 to 2017 | Philippines

- Built WordPress websites from supplied PSD designs, including WooCommerce stores, and created and modified custom themes and plugins
- Worked across Beaver Builder, WPBakery, Divi, Elementor, Avada, Visual Composer, Genesis, and Thrive
- Set up DNS, hosting, and domain configuration for client websites

Web Developer

Xposure Media | 2015 to 2016 | Philippines

- Built websites and pages using the company's in-house PHP framework
- Converted provided designs into responsive pages using HTML, CSS, JavaScript, and jQuery
